

### **parrotTrouble**

```
public boolean parrotTrouble(boolean talking, int hour) {  
    boolean forbiddenHour = (hour < 7) || (hour > 20);  
    boolean trouble = true;  
  
    if ( talking && (forbiddenHour == true) ) {  
        trouble = true;  
    }  
    else {  
        trouble = false;  
    }  
  
    return trouble;  
}
```
